MIRACLE

Results:

Perfect straight hair that is nourished

Temporary shutting down sulfur bonds, without damaging the hair fiber

Brand new generation of **Cosmetics Actives**
(Patent Pending)

Developed exclusively by our **Technical and Scientific team**

Perfect Combination:
Allium Cepa Extract and Glioxilol of Keratin Amino Acids

All in a **NANO molecule** that permeates better the hair fiber

MIRACLE

GOZ
creating sensations

MIRACLE Ionizing Shampoo

New technology
to ionize the hair

The L-Glutamic Acid is an excellent humectant, present in the human skin, used to prevent flaking scalp, common in hair procedures with acid bases.

Gives hair a negative charge, preparing it to receive the positive charged active ingredients

pH between
6.5 to 7.5

ORC – Onion Restore Complex

Positively charged **NANO** active ingredients molecules for deeper reach.

Actives: Allium cepa bulb extract (thiodipropionic acid) and Glyocloil)

Those actives in a **NANO** molecule permeates the hair fiber temporarily to shutdown the sulfur bonds.

pH between
1.5 to 2.5

RMC

Reconstructor Mask Complex

Light creamy base
ideal for maximum
absorption of our
principals

Actives: Vegetal Collagen
from Acacia, concentrate
of Polysaccharides and
amino acids mocking up
the Animal Collagen

Noble Polymers to:
Intensify the hair fiber
straitening

Protect hair against
thermal tools harm

pH between

3.5 to 4.5

ORC

Caucasian hair processed with Tioglicolato de Amônia

BEFORE BB Miracle treatment

After BB Miracle Treatment

**The entire HOME CARE LINE
was developed based on two
innovative technologies**

HOME CARE

Nanotechnology

- Allows NANO protein molecules with cationic charges to penetrate deeper into the hair fiber, reaching the most damaged areas and acting more effectively.

3D Network

- Being positively charged and with affinity to the negative charge cuticle, it will form a protective film, the active ingredient is released gradually and sequentially where needed.

SHAMPOO BB NANO CARE

Innovative formula with cleansing and moisturizing actives

Actives: Amisoft and Ajidew NL-50, amino acids from natural sources such as cane sugar and coconut oil.

Amisoft: extremely smooth and safe surfactant.

Ajidew NL-50: Important umectant present in the skin natural hydration.

pH between
5.5 to 6.5

CONDITIONER BB NANO CARE

Enriched with
Hydrolyzed
Keratin

Shea Butter: Excellent
cationic obtained by
an innovative process
with excellent
antistatic properties

Polymer with high cationic
charge with properties,
which helps reduce
volume and intense action
anti frizz

pH between
3.5 to 4.0

BB NANO CARE

Hidragloss Quat C22 -
Emollient from Murumuru
Butter, with a long chain of
22 carbons

Actives: Vegetal Collagen
from Acacia, concentrate
of Polysaccharides and
amino acids mocking up
the Animal Collagen

Provides essential fatty
acids to lipid replacement
thus restoring the hair
natural malleability and
shine

pH between
3.5 to 4.5

Instant Miracle 14 em 1

Repairs the sulfur bridges in the new **STRAIGHT** format.

Provides “**cement**” effect on capillary frizz filling the cuticles with nanoparticles

Heat from blow dryer or flat iron will trigger the formation of polymers, forming a hydrophobic film on the hair.

Ensures a long lasting straight effect, rejuvenating and restoring the hair fibers
pH between
2.0 to 2.5

Instant Miracle 14 em 1

Care

- 1- Cosmetic renovation
- 2- Nano Crystallization of Hair fibers
- 3- Replacement of Protein Mass by Nano molecules
- 4 - Sealing of the hair cuticles

Looks

- 5- Anti Oxidant
- 6- Dryness Protection
- 7- Advanced Nutrition
- 8 -Brightness and Luminosity
- 9. Tames and Control frizz

Nourish

- 10-Thermal and UV protection
- 11- Color Protection
- 12. Restores hair resistance and elasticity
- 13- Strengthening of hair fiber
- 14. Fights Opacity
